

The FlexFX Program

The FlexFX Program is a simple and flexible railing option that improves any view and makes your space feel larger. The FlexFX railing option from RailFX® allows you to incorporate these same benefits into any residential railing application with ease. Ideal for both interior and exterior projects, RailFX stainless steel fittings and cable are perfect for decks, docks, balconies, and stairways that use wood posts, metal posts, or composite sleeves. Made in the USA with pride!

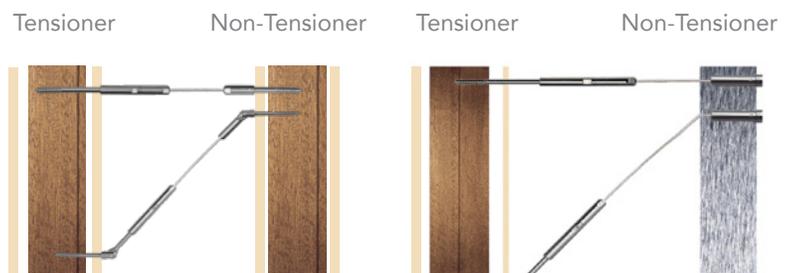

FlexFX: Easy As 1-2-3

- 1 What posts are you using? Wood, Metal, or Sleeved?
- 2 Measure your level and stair runs, calculate number of level and stair fittings.
- 3 Add up tensioners and non-tensioners. Then calculate total cable footage (plus 5%).

FlexFX Benefits

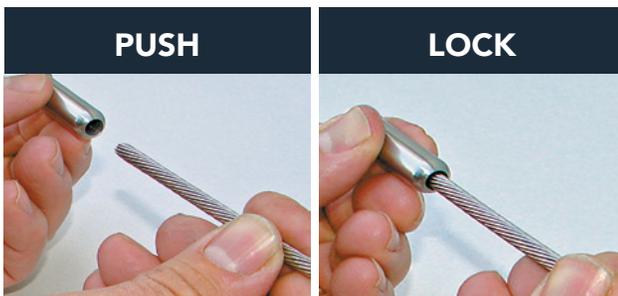

A clean finish. No metal visible on post.

- Looks the best - Easiest to install.
- Sleek and smooth, no sharp edges.
- Easy to tighten, no loose or sagging cables.
- Fittings attach to end posts only; cable passes straight through all intermediate posts for maximum visibility.
- Two options for cable thickness, 1/8" and 3/16". Cable comes in 100' and 500' lengths.
- 10-Year Warranty

You will need at least one Tensioner per run of cable. Pictured are common combinations of tensioners and non-tensioners. FlexFX fittings are engineered to be used with RailFX cable only.

Push-Lock® Fittings

FlexFX features our exclusive Push-Lock® fittings which do not require any special tools for installation. Simply push the cable into the fitting and it locks.

Pull-Lock® Fittings

FlexFX features our exclusive Pull-Lock® fittings which do not require any special tools for installation. Simply pull the cable through the fitting and it locks.
